Work experiences

UX Designer, CrowdTaskSG (GovTech Singapore)

Aug 2025 - Present

- Redesigned quest home pages, increasing task completion rates by 20%
- Designed the ReadSG Challenge for National Library Board, creating a gamified reading experience that encourages users to build consistent reading habits and engage with NLB programmes
- Identified and resolved agency user pain points to improve engagement

Product Designer, ADDX

Mar 2022 - Jul 2025

- Redesigned account opening flow, improving onboarding completion by 20%
- Optimized user acquisition UX, increasing activation rate by 15%
- Partner with Product and stakeholders to identify opportunities for revenue growth
- Conduct user research and interviews to inform design decisions
- Own full design lifecycle from wireframes to delivery, including design system maintenance

Product Design Intern, ADDX

Nov 2021 - Feb 2022

- Developed visual interface specifications
- Worked on my data tracking fundamentals using Amplitude
- Worked on my UI design fundamentals, and understanding of platform and device requirements
